Product Description

For maximum bond strength, the surface should be thoroughly cleaned and dried. Typical cleaning solvents are heptane or isopropyl alcohol. Carefully read and follow manufacturer's precautions and directions for use when using cleaning solvents. 3M Adhesive Transfer Tapes with 3M Low Surface Energy Acrylic Adhesive 300LSE provides high bond strength to most surfaces, including many low surface energy plastics such as polypropylene and powder coated paints. The acrylic adhesive also provides excellent adhesion to surfaces contaminated lightly with oil typically used with machine parts

How customer reviews and ratings work

Review this product

Share your thoughts with other customers

Write a customer review

Customers say

Customers find the adhesive tape effective for various applications, particularly for replacing adhesive and guitar pickguards, with strong double-sided adhesion and durability. The product receives positive feedback for its versatility, with one customer mentioning its suitability for phone and laptop screen replacements. The tape's thickness receives mixed reviews, with some finding it outstanding while others compare it to packing tape, and opinions are divided on its ease of use and adhesion performance. Customers consider the product pricey for its size.

Jonathan Sumner

Perfect for my application

Reviewed in the United States on December 1, 2025

Verified Purchase

Perfect for what I needed it for. I was reattaching a guitar pick guard. Didn't realize I was getting three sheets. Maybe I didn't read the ad right but I was pleasantly surprised.

search says this is what most pickguard manufacturers use . I built a sweet gum wood pickguard for my Taylor 214 ce.and it came out beautiful. this was just perfectly wide enough. perfect for this application.

James Maloney

It worked for me.

Reviewed in the United States on June 19, 2025

Verified Purchase

The adhesive backing on this tank protector piece failed to stick to the piece but stuck to my bike. 6 out of seven pieces were fine. I tried a few different things and they failed. I tried to go through customer service from the sender. That was going to be wasted effort. Thank god I got this inexpensive product that so far so good has solved my problem. It took some time to shape it to form twice. I doubled it up and I think it will hold up.

Used to resupport MacBook Pro battery

Reviewed in the United States on February 3, 2024

Verified Purchase

I have a 2013 MacBook that works great. Replaced the battery in it a year ago but during the holidays a light knocking began to occur when moving the laptop. Opened it to find one section of the lion pack wasn't secured. This was thin enough and workable enough to fold it over in itself and slide it under the section that needed support.

Outstanding adhesive

Reviewed in the United States on January 17, 2021

Verified Purchase

Super thin outstanding adhesive! I used it to adhere my phone holder (heavy swivel magnet) in my truck. It's been 2 months and still holding very strong! For the record, I have a Note 10+ with heavy duty case and metal plate for magnetic holder.

Works on silicone-like phone case.

Reviewed in the United States on October 24, 2020

Verified Purchase

My cheap phone wallet was coming un-stuck from my silicone-like case so I peeled one paper side off, placed it on the sticky and cut to shape. I cleaned the case with an alcohol wipe and let dry. (I always do this for command hooks and other sticky things). Then peeled the other paper and stuck it to the case. Waited a few hours to touch it so the adhesive would work best and voila! Works 1000x better than the original sticky. 10/10 would recommend for this use. Will update if any issues.

alex

Was not helpful for this car guy

Reviewed in the United States on November 9, 2024

Verified Purchase

Needed some 3m for an aesthetic job. This sheet was wide enough that I could cut it to match my oblong shaped part(s) so I thought "right purchase". Wrong. It was not sticky enough and there was minimal hold. The parts weighed maybe 2 ounces and they were positioned top-flush (laying) so they didn't need much. Wasn't worth the pocket change unfortunately

Mr Breeze

Love this stuff, will probably find other uses beyond my immediate needs.

Reviewed in the United States on October 26, 2016

Verified Purchase

Need to have patience and be careful when working with this as it's SO sticky and a real thin film. But, that's exactly what I was looking for in my application. Bought just one 4x8 sheet to handle to different jobs and have plenty left over for future needs. One application I need thin and real strong double sided tape that had to be as clear as possible. What I was adhering is clear (a piece of plastic onto newly painted wood trim) and I didn't want to see the tape through it. It's not 100% optically clear, but

enough so that no one will really notice the tape. The other application I needed it for it had all the same requirements except that it didn't NEED to be clear. I would buy again, but I think this sheet will last me awhile.
